

## A Framework for Palliative Care

Health Canada has initiated a public consultation to collect input and ideas for the purpose of developing a framework on palliative care.

This consultation will run for three months from May to July, 2018.

During this time we will engage Canadians on themes like: advance care planning, person and family-centred care, access issues, special populations, health care provider training and supports, caregiver needs, and community engagement.

**For more details go to:**

<https://www.letstalkhealth.ca/palliativecare/faqs#2918>

**To participate in discussion please register at:**

<https://www.letstalkhealth.ca/register>

**Please emphasize:**

1. **the importance of the spiritual care dimension**
2. **that palliative care does not include euthanasia or assisted suicide**

**Who should participate in this consultation?**

This consultation is open to **all** Canadians, and we welcome you to join the discussions and share your thoughts on palliative care.

**I would rather submit my comments by email, how can I do that?**

Please feel free to send the (Palliative Care) team an email

[End.of.life.care\\_Soins.fin.de.vie@hc-sc.gc.ca](mailto:End.of.life.care_Soins.fin.de.vie@hc-sc.gc.ca)

**My friend would like to contribute but doesn't have a computer, is there a downloadable version of the questions?**

Yes, please contact us and we can send you the required documents.
