

Come & hear **STEPHEN WOODWORTH**  
on “PROTECTING YOUR CHILDREN’S FREEDOM”

Stephen Woodworth *practised law* for almost thirty years, assisting neighbours in Kitchener, Ontario with all their legal needs. He was elected and served as

**Member of Parliament from 2008 until 2015,**

becoming the longest-serving **Member of the Parliamentary Environment Committee**. Stephen also served on the **Justice Committee** and was actively involved in several **Parliamentary Friendship Groups**.

In 2012, he introduced **Motion 312** calling for a Parliamentary study of Canada’s 400 year-old false **legal definition of “human being.”** The Motion was subsequently defeated.

*Attuned to the worlds of both law and politics, Stephen has become acutely concerned about the erosion of fundamental freedoms in Canada.*

**Have you ever** awoken, like Rip Van Winkle, to find that your world has disappeared and been replaced by a darker version of what you remembered?

**Did you ever expect** that Canada in 2016 could become a place where religious non-conformists could be denied a livelihood by a repressive state apparatus enforcing a state-authorized religious orthodoxy?

**Could you predict** that, in 2016 Canada, government agencies would be allowed to penalize people who refuse to participate in state-approved activities which, to those individuals, are unconscionable?

**Is it acceptable to you** that your Parliament should perjure itself and falsely condemn *any* individual?

**Stephen Woodworth believes these developments we’re witnessing in Canada are evidence of an aggressive and undeclared WAR ON DEMOCRATIC FREEDOMS. Can we reverse that trend?**

***The time to act is now, for the children’s sakes!***
